

We carry the long-acting antibody Evusheld!

This medication is available under EUA for patients 12 years and older who weigh at least 88 pounds and are **COVID-negative** with no known recent exposure. This is only for patients with a known moderate to severe immunocompromising condition or for those who can't receive a vaccine due to a history of severe adverse reaction to a COVID-19 vaccine or vaccine components.

Evusheld is available by **prescription only**. Prescriptions can be e-scribed or faxed to one of our Moose Pharmacy locations using the provided prescription template.
